# Compromise Assessment Service: Uncover Hidden Threats Before They Strike

## Uncover Hidden Threats. Strengthen Defenses. Stay Ahead.

Threat actors increasingly embed themselves quietly within environments, often going unnoticed for months or years. Traditional security monitoring may miss these sophisticated breaches, especially when attackers leverage stealthy persistence mechanisms. Annual or periodic compromise assessments are essential to proactively detect hidden adversaries before they can trigger ransomware, exfiltrate sensitive data, or disrupt operations. The Halcyon Compromise Assessment Service provides specialized expertise and technology to expose these hidden threats and remediate risks.

## Halcyon Compromise Assessment Overview

**The Halcyon Compromise Assessment** combines Halcyon's anti-ransomware technology and elite incident response team to check for signs of active or historical breaches proactively. The assessment includes a comprehensive evaluation of your security posture via the Ransomware Defense Blueprint (RDB).

## How Halcyon Compromise Assessment Stands Apart

- **$0 Technology Cost During Engagement:** Full deployment of Halcyon and leading EDR and forensic technology at no additional cost.

- **Inside-Out and Outside-In Visibility:** Simultaneous internal forensics and external attack surface monitoring.

- **Ransomware Defense Blueprint (RDB):** A tailored assessment of your ransomware readiness, layered into the compromise analysis.

- **Holistic Threat Mitigation:** Proactive hardening guidance across identity, infrastructure, backups, and endpoints.

- **Elite Incident Response Team:** Led by specialists with experience at Mandiant, Accuvant, and Kivu.

## Executive-Ready Deliverables

- High-level executive summaries geared for leadership and board audiences.

- Detailed technical findings with prioritized recommendations for IT and security teams.

### Halcyon Features

- Always Included 24/7/365 Expert Threat Monitoring and Recovery
- Pre-execution Prevention
- Ransomware Behavior Detection
- Encryption Key Material Intercept
- Data Exfiltration Protection

### About Halcyon

Halcyon is the only cybersecurity company that eliminates the business impact of ransomware. Modern enterprises rely on Halcyon to prevent ransomware attacks, eradicating cybercriminals' ability to encrypt systems, steal data, and extort companies. Backed by an industry-leading warranty, the Halcyon Anti-Ransomware Platform drastically reduces downtime, enabling organizations to quickly and easily recover from attacks without paying ransoms or relying on backups.

# Compromise Assessment Methodology

## 01: Activation

- Kickoff alignment with leadership and counsel.
- Rapid deployment of Halcyon and leading EDR and forensic technology.

## 02: Threat Visibility

- Internal telemetry collection and forensic analysis.
- External attack surface mapping and vulnerability identification.

## 03: Risk Mitigation Guidance

- Backup isolation and resilience verification.
- MFA enforcement validation.
- Public-facing infrastructure review.
- Identity and access management assessment.
- Endpoint security validation.

## 04: Executive Reporting

- Delivery of executive-level and technical briefings.
- Roadmap for remediation and future hardening.

100% of organizations identified critical vulnerabilities that were previously unknown.

Most compromise assessments complete in one month.

## What You Walk Away With:

1. Comprehensive assessment of potential compromises and ransomware readiness.
2. Immediate recommendations for securing critical systems and identities.
3. Executive summary tailored for leadership decision-making.
4. Technical report providing actionable steps for cybersecurity teams.

## Ready to Get Started?

Protect your organization from hidden threats with Halcyon Compromise Assessment, delivering unmatched insight and proactive protection.
